

## Universal Space

Universal Space (UNIS) recently introduced **Squirt A Gator**, a two-player game. This bright, fun, and eye-catching machine, part of the "Fun with Water" range is easy to install as no plumbing is required.

While it could be seen as a sequel to the popular Ducky Splash game, Squirt A Gator has the additional option to vend a capsule aside from a ticket. The UNI VEND concept will have the "Ticket + Prize or only Ticket or Prize" feature.

UNIS is placing this feature in a small selection of its machines this year. The capsule option will be provided as specified in one of three sizes: 100 mm, 65mm, or 50mm. ([www.universal-space.com](http://www.universal-space.com)).

## Report

**Light** from Kriss-Sport is a speed and reflex table game for kids and adults. Players must press lit buttons to earn points and tickets.

The game features quick reaction and physically active game play, upbeat retro music, multi-color RGB lighting, and various time and ticket options. A coin and note acceptor, and two ticket dispensers are included. ([www.kriss-sport.com](http://www.kriss-sport.com)). ▲
